

Where past meets future

All our collections are designed to bring life to every space and room, with lively motifs, graphic contrasts and a playful touch. We keep using old successful concepts and creating something more exciting and new !

Our designs are created with insights of different styles and trends since we believe that a rug is more than just a practical accessory.

It is expression of your personal style and a reflection of your personality. We strive and believe in one: our rugs should be the focus of your home! Be inspired and browse through our various collections to find the perfect rug for your home.

Whether you're searching for a classic piece or something more modern, we have just **The right rug for you!**

BALI

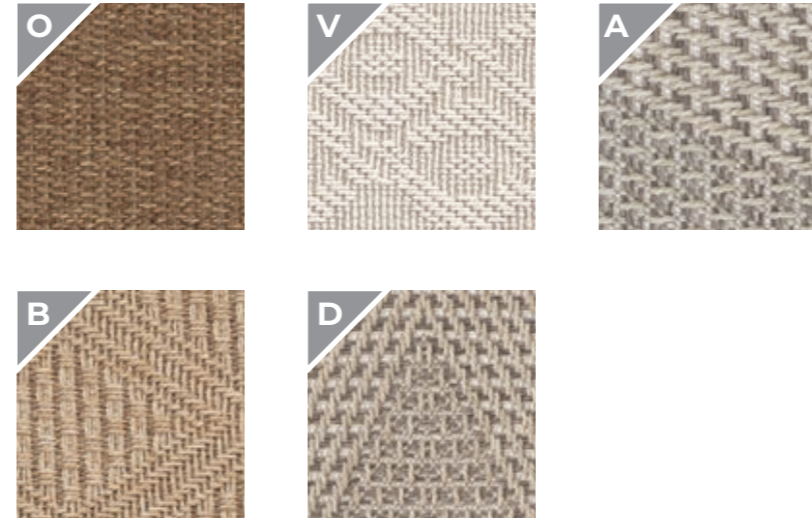

NEW collection

Bali is sisal-like flatweave product designed according to latest trends in home decoration. Carefully chosen colors and original design patterns with stressed structure offer practical solution for many different spaces – from light and stylish dining rooms to cozy and warm balconies and gardens.

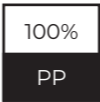

Bali rugs are suitable both for indoor and outdoor use, UV stable and easy to maintain but also pet friendly with durable, easy to clean surface.

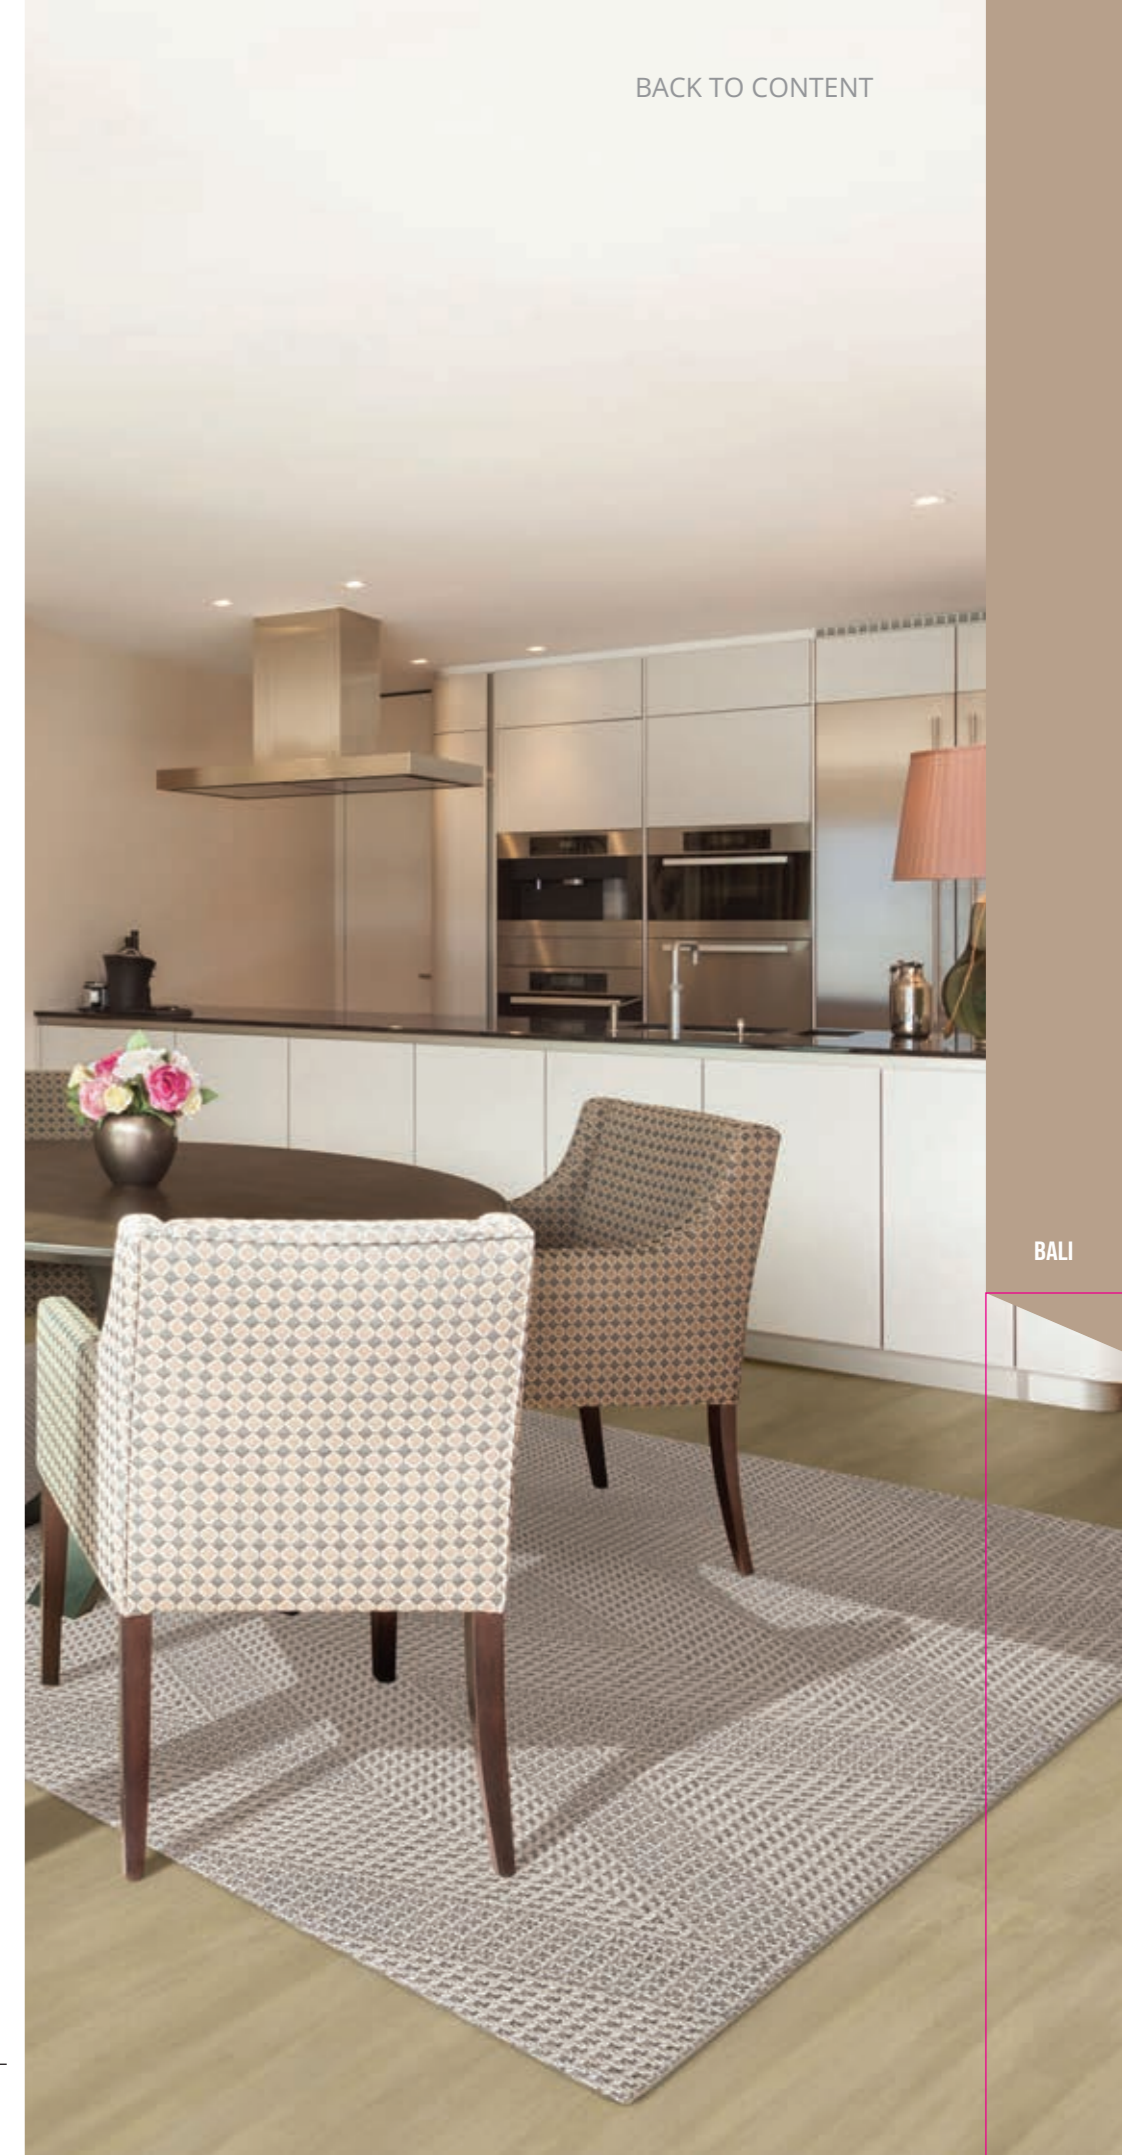

BALI

Modern technology is used to create natural looking handmade-like sisal rugs, where each rug is unique as are all things in nature. Due to this, slight shrinkage or impression of curvy edges may occasionally accompany robust and unique appearance of this product, without diminishing the overall visual or usage experience.

EASY RUGS

collection

Gentle surface for every room

Easy rug collections are made of modern synthetic fibers that ensure the rug stability, while extreme density and softness of the walking surface make these rugs a perfect choice for living rooms as well as bedrooms. Due to easy maintenance, they are practical even for high-frequency rooms.

Monochrome patterns follow minimalistic trends and make fitting these rugs into any room even easier. A soft antislip backing guarantees easy shifting during moving or simple relocation of these rugs.

Extra soft touch

Pile density provides sound insulation

Gives a sense of warmth and luxury

Easy on the floor

Easy on clean

Easy to fit in

Antislip rug backing

Rug backing made of felt with rubber dots reduces the risk of slipping and does not cause damage to the floor. That makes the rugs suitable for all types of parquet and laminate floors, as well as ceramic tiles. Felt backing with rubber dots ensures additional rug stability while making sure it stays in its place, so there is no need to buy an additional non-slip underlay to put under the rug.

Antislip backing

No need for an additional underlay

Gentle to the floor

Suitable for parquet

Suitable for laminate floors

Suitable for ceramic tiles

Soft and durable rug even machine washable

Maintenance is no longer a problem!

Rugs from Easy Rugs collections are suitable for manual and machine washing without spinning, even at home, which saves time and money. The durable material will not be damaged during the vacuuming. It is possible to wash them manually and in the machine at 30 degrees Celsius on the sensitive material program by following the label instructions.

Suitable for manual washing

Suitable for machine washing without spinning

Suitable for washing at home

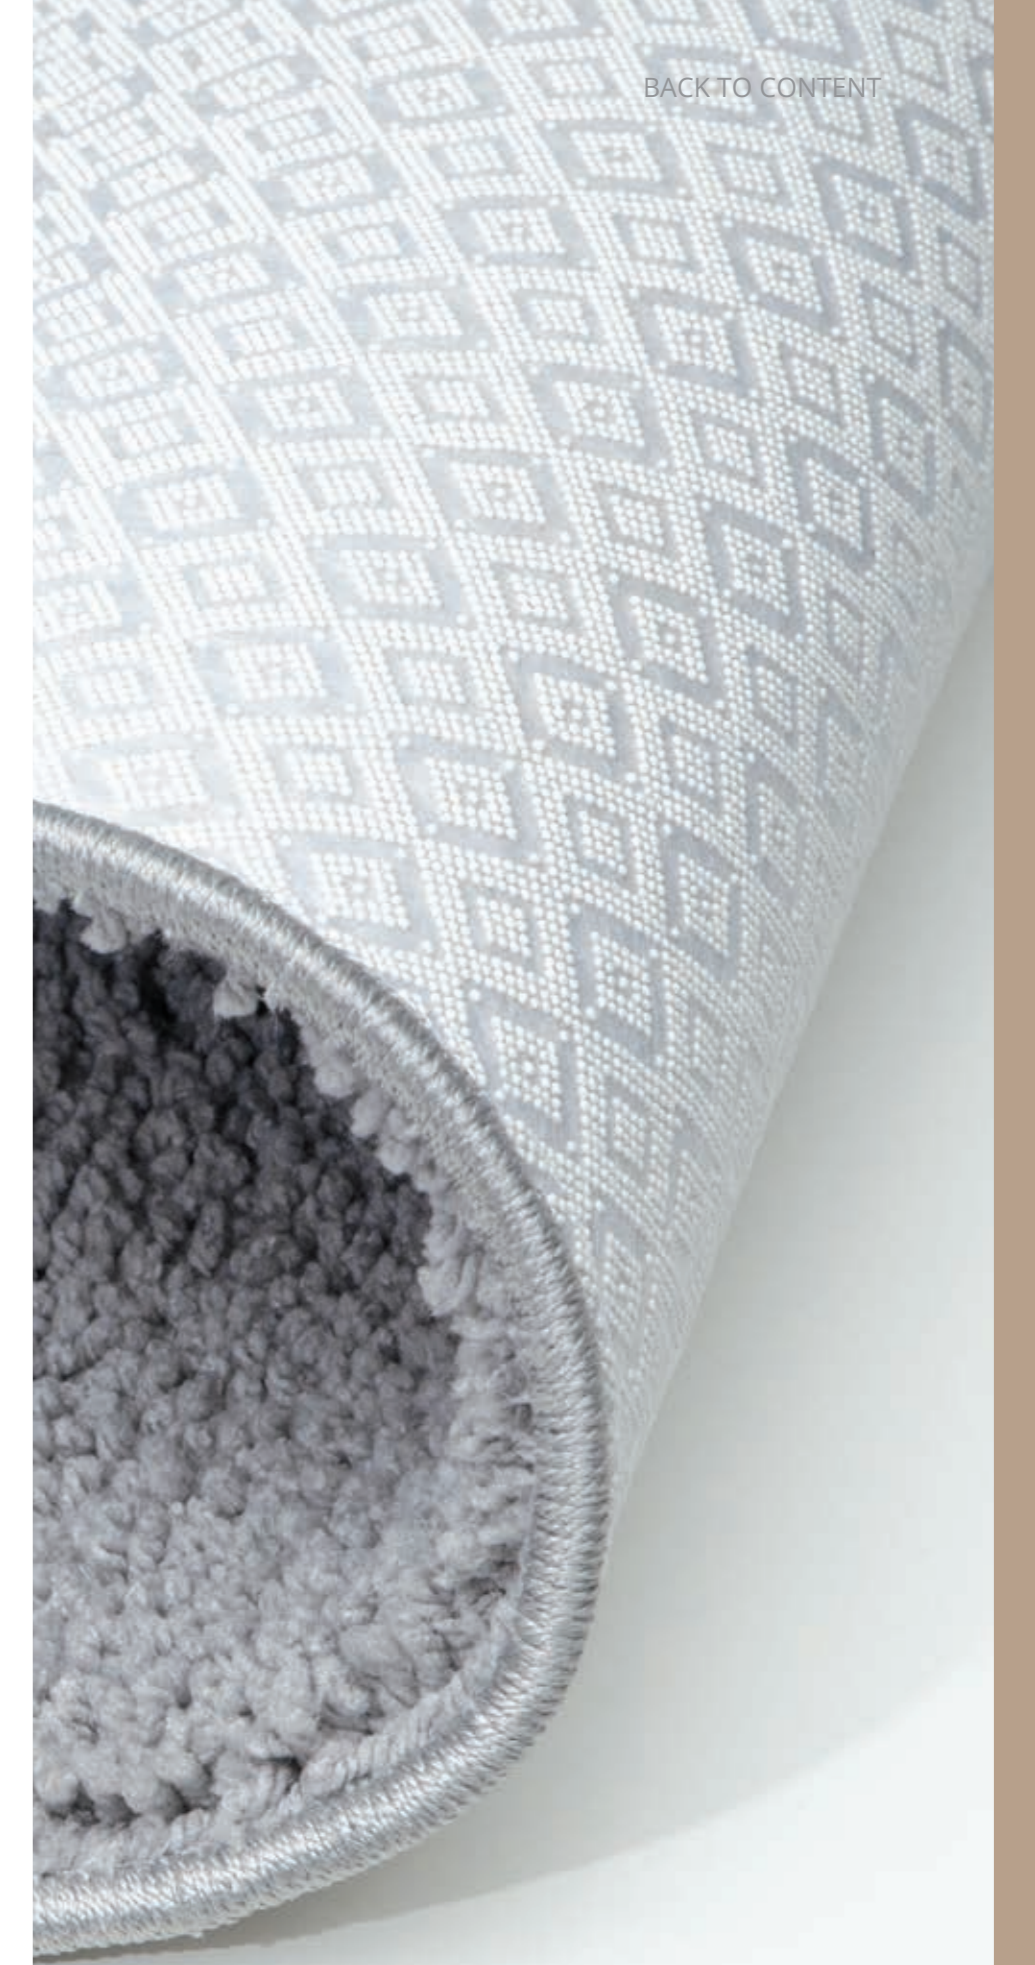

Suitable for professional cleaning

Saves time

Durable material

NEW YORK

collection

Soft touch and voluminous pile provides pleasant walking comfort and warm feel. Anti-slip rugs New York are both trendy and practical, very easy to use and maintain.

Rugs suitable for **disinfection at home**

Textile floor coverings with a Home disinfection mark consist of materials that facilitate regular disinfection with alcohol-based household products, securing no carpet damage, if following the instructions given below.

Disinfection is possible with the usage of standard household cleaning products in several ways. Use of ethyl alcohol (75%) or Asepsol (5% benzalkonium chloride) is recommended.

INSTRUCTIONS FOR EFFICIENT AND SAFE DISINFECTION

1. While applying disinfection product on a carpet, please wear a protective mask and gloves, as well as protective glasses if needed. During and after the disinfection, it is necessary to ventilate the room.
2. The maximum recommended amount of disinfection product is 500ml per square meter of carpet.
3. Applying the disinfectant is proposed with a spray bottle or soaked sponge. When using a spray bottle, apply the disinfectant at a 20-30cm distance from the carpet. When disinfecting with a sponge, mop the carpet surface and leave it to dry completely before using the carpet again.
4. When using Asepsol, it is recommended to use a 5% solution. After the disinfection let the carpet dry completely before you use it again.
5. In the disinfection process it is necessary to comply with safety measures and application instructions provided by the disinfectant manufacturers.
